# Installation Guide

1. Download following packages:
   http://www.wowroster.net/download/Shopping_WoW_Addon.zip
   http://www.wowroster.net/download/Shopping_Roster_Addon.zip
2. Extract Shopping_WoW_Addon.zip to your **WoW\Interface\AddOns** folder.
   Thats all for the WoW-Addon...:)
3. Extract Shopping_Roster_Addon.zip to your **roster/addons** folder
   Modify functions_cart.php in roster/addons/shopping folder on top:

   ```
   $mysql_server = "loacalhost";
   $mysql_username = "username";
   $mysql_pwd = "password";
   $mysql_dbname = "roster_DB";
   $table_prefix = "roster_";
   ```

   **Btw this values are the same you use with your roster....:)**
   **IMPORTANT: YOU HAVE TO CHMOD the following file to 666:**
   **roster/addons/shopping/save/Shopping_list.lua**

4. Now you have to configure UniUploader to sync it´s data WEB<-> WOW as follow:
   **Settings TAB**

check Shopping!

**Options TAB**

Check Additional URL´s amd fill in your roster URL+**extra** e.g.
   http://www.yourserver.com/roster/addon.php?roster_addon_name=shopping

Check Auto-Upload on file changes is optional but helpful...;)

**Advanced TAB**

1. Check Retrieve Data
2. Fill in URL+**extra** as mentioned above (the same)
3. Check before WOW launch
4. Uncheck before uploading
5. Check after uploading
6. Fill in the SV file to write to:
   **Shopping.lua**

That´s it....:) Enjoy shopping! CU Hannah

# HOW TO USE....

Visit you´r roster page and click on the addon Shopping. If it is the the first time after installation the script will create the desired tables. Now search for the items you´d like to order and push the button on the right column. After adding all the items go on to the basket and edit whatever you want to. Last but not least click the order button. Now start UniUploader click Start WOW (maybe it starts autmatically :). In WoW you´ll see a small icon at your minimap (top right). When you click on it you´ll nearly done... Just read on the ingame instructions and enjoy...
If you close WoW UniUploader will upload the „send" messages to roster....

**IMPORTANT: Don´t close the inbox ingame during transfer....!**
